All Rights Reserved.

The information in this document is subject to change without prior notice in order to improve the reliability, design and function. It does not represent a commitment on the part of the manufacturer.

Under no circumstances will the manufacturer be liable for any direct, indirect, special, incidental, or consequential damages arising from the use or inability to use the product or documentation, even if advised of the possibility of such damages.

This document contains proprietary information protected by copyright. All rights are reserved. No part of this document may be reproduced by any mechanical, electronic, or other means in any form without prior written permission of the manufacturer.

Declaration of Conformity

CE

The CE symbol on your product indicates that it is in compliance with the directives of the Union European (EU). A Certificate of Compliance is available by contacting Technical Support.

This product has passed the CE test for environmental specifications when shielded cables are used for external wiring. We recommend the use of shielded cables. This kind of cable is available from ARBOR. Please contact your local supplier for ordering information.

Warning

This is a class A product. In a domestic environment this product may cause radio interference in which case the user may be required to take adequate measures.

FCC Class A

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)   This device may not cause harmful interference, and

(2)   This device must accept any interference received, including interference that may cause undesired operation.

NOTE:

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications. Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

RoHS

ARBOR Technology Corp. certifies that all components in its products are in compliance and conform to the European Union's Restriction of Use of Hazardous Substances in Electrical and Electronic Equipment (RoHS) Directive 2002/95/EC.

The above mentioned directive was published on 2/13/2003. The main purpose of the directive is to prohibit the use of lead, mercury, cadmium, hexavalent chromium, polybrominated biphenyls (PBB), and polybrominated diphenyl ethers (PBDE) in electrical and electronic products. Member states of the EU are to enforce by 7/1/2006.

ARBOR Technology Corp. hereby states that the listed products do not contain unintentional additions of lead, mercury, hex chrome, PBB or PBDB that exceed a maximum concentration value of 0.1% by weight or for cadmium exceed 0.01% by weight, per homogenous material. Homogenous material is defined as a substance or mixture of substances with uniform composition (such as solders, resins, plating, etc.). Lead-free solder is used for all terminations (Sn(96-96.5%), Ag(3.0-3.5%) and Cu(0.5%)).

SVHC / REACH

To minimize the environmental impact and take more responsibility to the earth we live, Arbor hereby confirms all products comply with the restriction of SVHC (Substances of Very High Concern) in (EC) 1907/2006 (REACH --Registration, Evaluation, Authorization, and Restriction of Chemicals) regulated by the European Union.

All substances listed in SVHC < 0.1 % by weight (1000 ppm)

Important Safety Instructions

Read these safety instructions carefully

1. Read all cautions and warnings on the equipment.

2. Place this equipment on a reliable surface when installing. Dropping it or letting it fall may cause damage

3. Make sure the correct voltage is connected to the equipment.

4. For pluggable equipment, the socket outlet should be near the equipment and should be easily accessible.

5. Keep this equipment away from humidity.

6. The openings on the enclosure are for air convection and protect the equipment from overheating. DO NOT COVER THE OPENINGS.

7. Position the power cord so that people cannot step on it. Do not place anything over the power cord.

8. Never pour any liquid into opening. This may cause fire or electrical shock.

9. Never open the equipment. For safety reasons, the equipment should be opened only by qualified service personnel.

10. If one of the following situations arises, get the equipment checked by service personnel:

    a. The power cord or plug is damaged.

    b. Liquid has penetrated into the equipment.

    c. The equipment has been exposed to moisture.

    d. The equipment does not work well, or you cannot get it to work according to the user's manual.

    e. The equipment has been dropped or damaged.

    f. The equipment has obvious signs of breakage.

11. Keep this User's Manual for later reference.

Warning

The Box PC and its components contain very delicately Integrated Circuits (IC). To protect the Box PC and its components against damage caused by static electricity, you should always follow the precautions below when handling it:

1. Disconnect your Box PC from the power source when you want to work on the inside.

2. Use a grounded wrist strap when handling computer components.

3. Place components on a grounded antistatic pad or on the bag that came with the Box PC, whenever components are separated from the system.

Lithium Battery Replacement

Incorrect replacement of the lithium battery may lead to a risk of explosion.

The lithium battery must be replaced with an identical battery or a battery type recommended by the manufacturer.

Do not throw lithium batteries into the trash can. It must be disposed of in accordance with local regulations concerning special waste.

Technical Support

If you have any technical difficulties, please consult the user's manual first at: http://www.arbor.com.tw

Please do not hesitate to call or e-mail our customer service when you still cannot find out the answer.

Warranty

This product is warranted to be in good working order for a period of one year from the date of purchase. Should this product fail to be in good working order at any time during this period, we will, at our option, replace or repair it at no additional charge except as set forth in the following terms. This warranty does not apply to products damaged by misuse, modifications, accident or disaster.

Vendor assumes no liability for any damages, lost profits, lost savings or any other incidental or consequential damage resulting from the use, misuse of, or inability to use this product. Vendor will not be liable for any claim made by any other related party.

Vendors disclaim all other warranties, either expressed or implied, including but not limited to implied warranties of merchantability and fitness for a particular purpose, with respect to the hardware, the accompanying product's manual(s) and written materials, and any accompanying hardware. This limited warranty gives you specific legal rights.

Return authorization must be obtained from the vendor before returned merchandise will be accepted. Authorization can be obtained by calling or faxing the vendor and requesting a Return Merchandise Authorization (RMA) number. Returned goods should always be accompanied by a clear problem description.

This page is intentionally left blank.

Chapter 1

Introduction

1.1. The Computer

Product Highlights

- 10~21.5" LCD Display w/ LED Backlight
- Flat panel with resistive touchscreen / projected capacitive touchscreen (depending on model)
- Front panel compliant with IP65
- Anti-scratch surface: 7H hardness (ASLAN-W9XXC)
- Mini PCIe expansion slot support
- Fanless cooling system
- Cable-less Design
- Low power consumption
- 2 x SMA antenna holes for optional WiFi function
1.2. About this Manual

This manual is meant for the experienced users and integrators with hardware knowledge of personal computers. If you are not sure about the description in this manual, consult your vendor before further handling.

We recommend that you keep one copy of this manual for the quick reference for any necessary maintenance in the future. Thank you for choosing ARBOR products.

1.3. Specifications

System	
CPU	Intel® Core i5-6300U™ Processor 2.4GHz
Memory	1 x 4GB DDR4 SO-DIMM RAM module installed
LAN Chipset	1 x Intel® i219LM PCIe controller w/ iAMT
	1 x Intel® i210IT PCIe controller
Watchdog Timer	1~255 levels reset
Storage	
Device	2 x 2.5" drive bay (default) (only for ASLAN-917X/W915C/W919C/W922C) 1 x mSATA
Audio	
Device	Line Out / Mic In (Optional)
LCD Display	
Size/Type	ASLAN-917X 17" TFT LCD Panel ASLAN-W910C 10.1" TFT LCD Panel ASLAN-W912C 11.6" TFT LCD Panel ASLAN-W915C 15.6" TFT LCD Panel ASLAN-W919C 18.5" TFT LCD Panel ASLAN-W922C 21.5" TFT LCD Panel
Max. Resolution	ASLAN-917X 1280x1024, SXGA ASLAN-W910C 1280 x 800, WXGA ASLAN-W912C/W922C 1920 x 1080, Full HD ASLAN-W915C/W919C 1366 x 768, WXGA
Max. Colors	ASLAN-917X/W915C/W919C/W922C: 16.2M ASLAN-W910C/912C: 16.7M
Luminance	ASLAN-917X/W910C 350 cd/m² ASLAN-912C/W915C/W919C 300 cd/m² ASLAN-W922C 250 cd/m²
Touch Screen	ASLAN-917X: True flat resistive / projected capacitive touch panel ASLAN-W910C/W912C/W915C/W919C/W922C: Projected capacitive touch panel
View Angle (U/D/R/L)	ASLAN-917X: 85°/85°/80°/80° ASLAN-W910C/W912C/W915C/W919C/W922C: 80°/80°/85°/85°
Power System	
Power Input	ASLAN-917X/W915C/W919C/W922C: DC 9~36V ASLAN-W910C/912C: DC 12~28V

Power Consumption	ASLAN-917X Max. 29.0W (w/o I/O cards) ASLAN-W910C Max. 23.0W (w/o I/O cards) ASLAN-W912C Max. 24.0W (w/o I/O cards) ASLAN-W915C Max. 30.8W (w/o I/O cards) ASLAN-W919C Max. 29.0W (w/o I/O cards) ASLAN-W922C Max. 38.1W (w/o I/O cards)
Qualification	
Certification	CE, FCC Class A
Expansion	
Expansion Bus	1 x mSATA (SATA, Full Size) 1 x mPCIE (PCIex1+USB2.0, Full Size) 1 x mPCIE (PCIex1+USB2.0, Half Size)
External I/O	
Video Output	1 x VGA /1 x HDMI
USB Ports	4 x Type-A USB 3.0/2.0 ports
LAN	2 x RJ-45 GbE ports
COM	ASLAN-917X/W915C/W919C/W922C: 4 x COM (RS-232/422/485) ASLAN-W910C/912C: 2 x COM (RS-232/422/485)
DIO	4IN / 4OUT Digital I/O (optional) (only for ASLAN-917X/W915C/W919C/W922C)
Mechanical	
Mounting Type	ASLAN-917X/W915C/W919C/W922C: Panel Mounting and VESA-100 Mounting ASLAN-W910C/W912C/: VESA-75 / Panel Mount (Bracket Optional)
Chassis	Panel-mounting chassis, aluminum front bezel and SGCC steel chassis
Dimension (W x H x D)	ASLAN-917X 470 x 295 x 56.2 mm (18.5" x 11.6" x 2.21") ASLAN-W910C 255 x 175 x 76.5 mm (10.04" x 6.89" x 3.01") ASLAN-W912C 306.2 x 206 x 76.5 mm (12.06" x 8.11" x 3.01") ASLAN-W915C 404 x 255 x 56.3 mm (15.91" x 10.04" x 2.22") ASLAN-W919C 470 x 295 x 56.2 mm (18.5" x 11.6" x 2.21") ASLAN-W922C 536 x 332 x 55.5 mm (21.1" x 13.07" x 2.19")
Weight (Net)	ASLAN-917X 6.5 kg (14.3 lb) ASLAN-W910C 2.41 kg (5.31 lb) ASLAN-W912C 2.48 kg (5.47 lb) ASLAN-W915C 4.46 kg (9.83 lb) ASLAN-W919C 5.68 kg (12.52 lb) ASLAN-W922C 7.01 kg (15.45 lb)
Environmental	
Operating Temp.	-20ºC ~ 55ºC (-4°F ~ 140°F)
Storage Temp.	-30°C ~ 70°C (-22°F ~ 158°F)
Operating Humidity	10 ~ 95% RH @ 55°C (non-condensing)

Vibration	5 ~ 500Hz, 0.5Grms Random (w/ mSATA)
Shock	Operating 10G, 11ms Non-operating 30G, 11ms (w/ mSATA or SSD)
OS Support	
Windows 7 / Windows 8.1 / Windows 10 / Linux: Ubuntu	

1.4. Inside the Package

Upon opening the package, carefully inspect the contents. If any of the items is missing or appears damaged, contact your local dealer or distributor. The package should contain the following items:

1 x ASLAN-917X/W9XXC
*Product appearance varies by model.

1 x **Accessory Box** that contains the following items:

- Driver DVD
- User's manual
- Screws/cable
- 3-pin plug for terminal block

1.5. Ordering Information

ASLAN-917X	17" Intel® Core i5-6300U 2.4GHz Processor industrial panel PC with 4GB Memory
ASLAN-W910C-6300G4	10.1" Intel® Core i5-6300U 2.4GHz Processor Wide-screen industrial panel PC with 4GB Memory
ASLAN-W912C-6300G4	11.6" Intel® Core i5-6300U 2.4GHz Processor Wide-screen industrial panel PC with 4GB Memory
ASLAN-W915C-6300G4	15.6" Intel® Core i5-6300U 2.4GHz Processor Wide-screen industrial panel PC with 4GB Memory

ASLAN-W919C-6300G4	18.5" Intel® Core i5-6300U 2.4GHz Processor Wide-screen industrial panel PC with 4GB Memory
ASLAN-W922C-6300G4	21.5" Intel® Core i5-6300U 2.4GHz Processor Wide-screen industrial panel PC with 4GB Memory

2.3. Driver Installation Note

The computer supports the operating systems Windows 7, Windows 8.1 and Windows10. Find the necessary device drivers on the CD that comes with your purchase. Always follow the sequence below to install all drivers to prevent errors:

Windows 7 and Windows 8.1 64-Bit

For Windows 7 and 8.1 64-bit, please use system image to install the OS and the drivers.

Windows 10 64-Bit

Device	Driver Path

Chapter 3

Engine of the Computer

3.1. Board Layout

Main Board (FMB-i89U1)
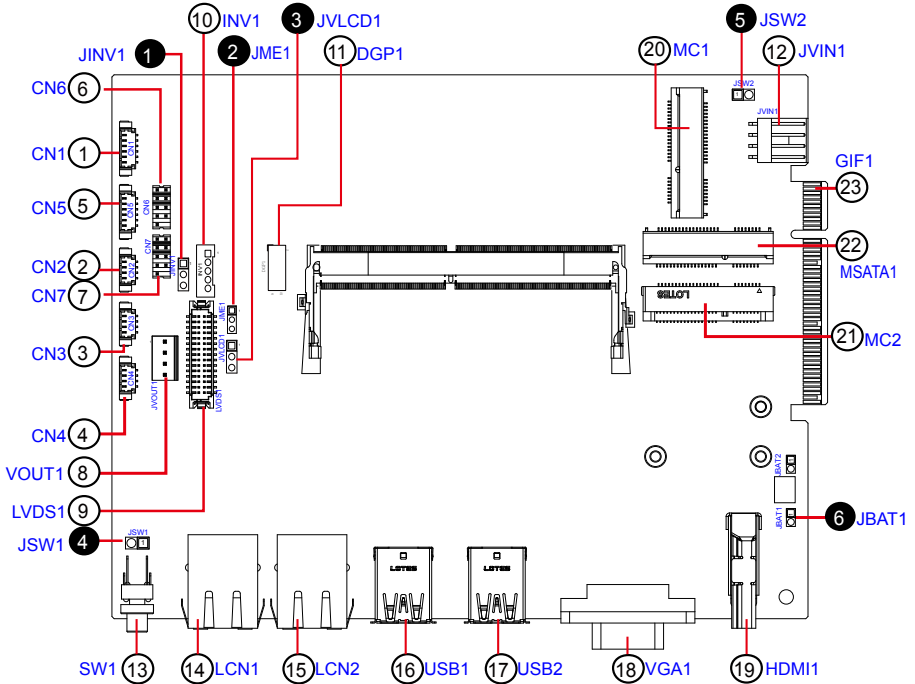

Jumpers

Label	Description
❶JINV1	LVDS Inverter Voltage Select Jumper
❷JME1	ME FLASH Select Jumper
❸JVLCD1	LVDS VDD Voltage Select Jumper
❹JSW1	Power Button
❺JSW2	Reset Button
❻JBAT1	CMOS Settings

Connectors

Label	Description
①CN1	Audio Connector
②③④CN2, 3, 4	USB 2.0 Connectors
⑤CN5	PS2 Connector
⑥⑦CN6, 7	COM1, 2 (RS-232/422-485 Selectable Serial Port)
⑧JVOUT1	Power Output
⑨LVDS1	LVDS Connector
⑩INV1	LVDS BL Connector
⑪DGP1	Debug Port
⑫JVIN1	Power Input
⑬SW1	Power Button
⑭⑮LCN1, 2	RJ-45 Ethernet Connectors
⑯⑰USB1, 2	USB 3.0/2.0 Connectors
⑱VGA1	VGA Connector
⑲HDMI1	HDMI Connector
⑳㉑MC1, 2	PCI Express Mini-card Full/Half Size Socket
㉒MSATA1	mSATA Socket
㉓GIF1	PCIe Gold Finger Connector

Daughter Board (SCDB-1299H)

The daughter board is only available to ASLAN-917X/W915C/919C/922C/922C-IP.
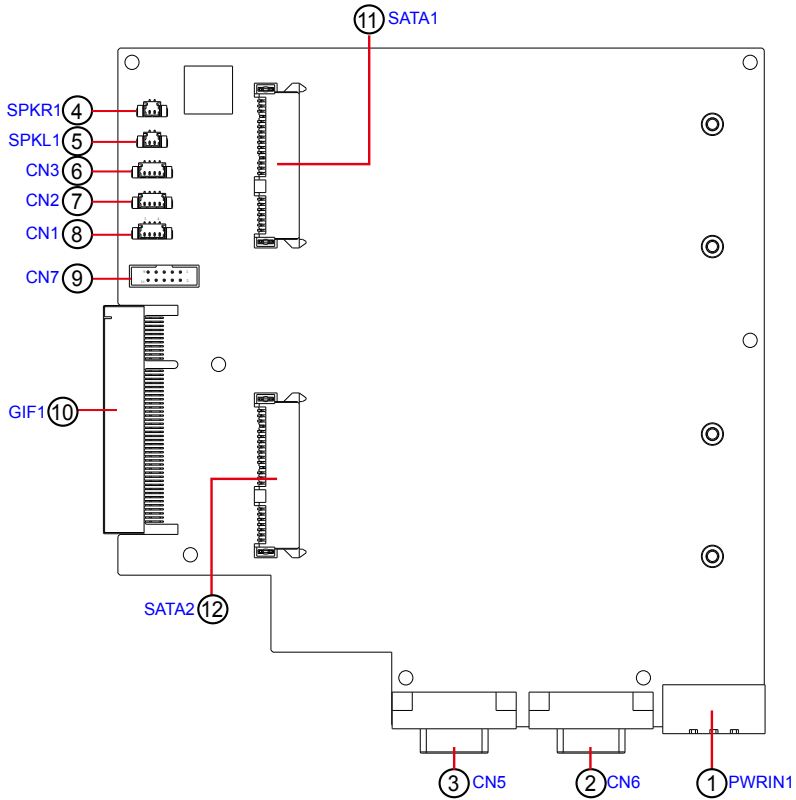

Connectors

Label	Description
①PWRIN1	Audio Connector
②③CN6, 5	COM4, 3 (RS-232/422/485 Selectable Serial Port)
④SPKR1	Speaker Output Connector
⑤SPKL1	Speaker Output Connector
⑥⑦⑧CN3, 2, 1	USB 3.0/2.0 Connector
⑨CN7	DIO Connector
⑩GIF1	Gold Finger Connector
⑪⑫SATA1	SATA HDD Connector

3.2. Jumpers and Connectors

3.2.1 Main Board (FMB-i89U1)

3.2.1.1. Jumpers

❶JINV1

Function: Sets LVDS inverter voltage. (This jumper sets the voltage of LVDS connector INV1, which means this jumper decides the pin 1 of the LVDS connector INV1.)

Jumper Type: 2.54mm pitch, 1x3-pin header

Setting:

Pin	Description
1-2	+12V (default)
2-3	+5V
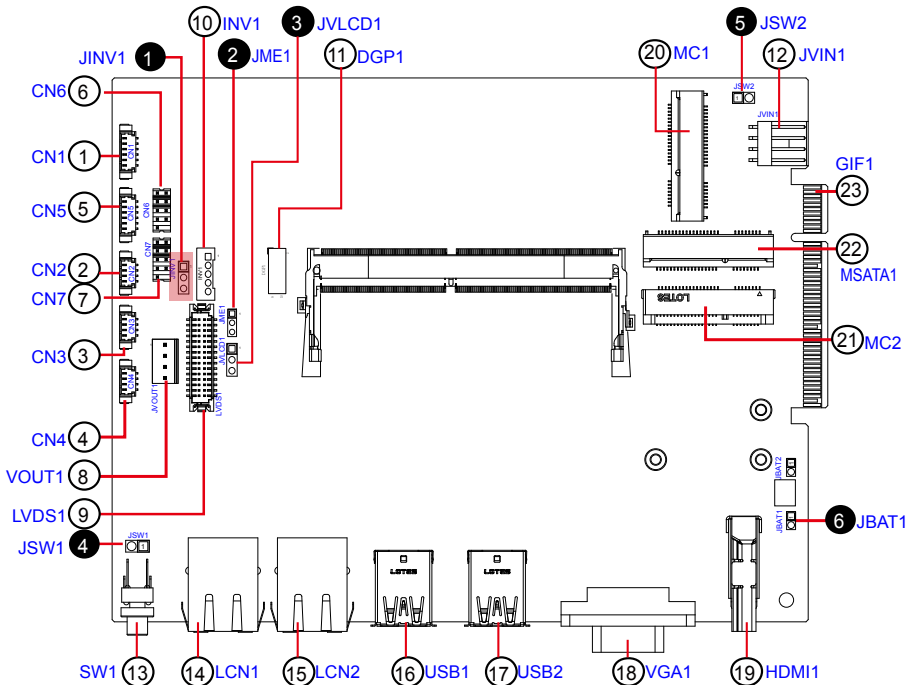

❷ JME1

Function:	ME Flash Select Jumper
Jumper Type:	2.00mm pitch, 1x3-pin header

Setting:

Pin	Description	
1-2	ME Flash disable (Default)	3 2 1
2-3	ME Flash enable	3 2 1
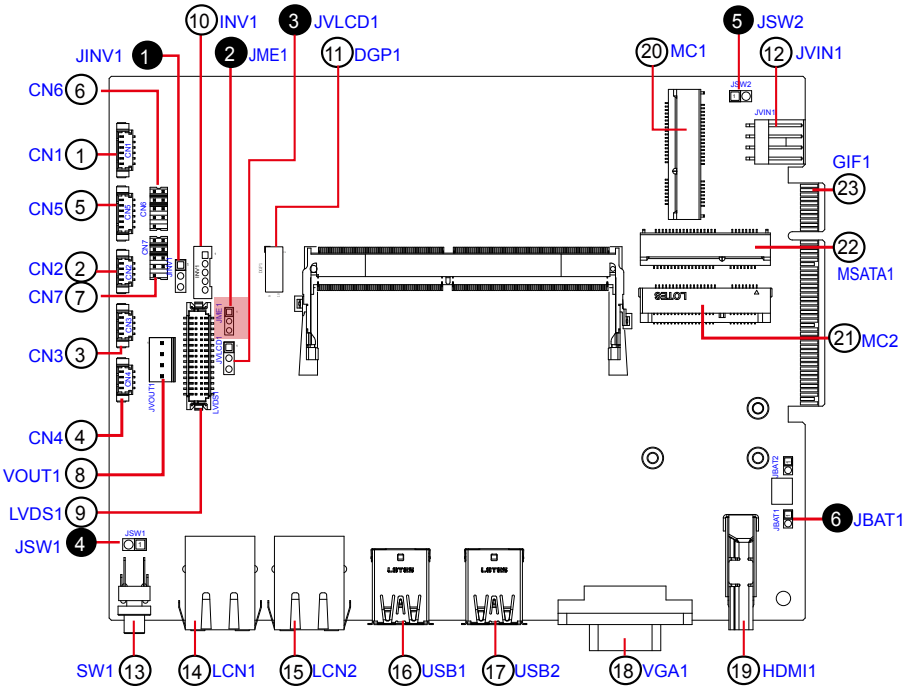

❸ JVLCD1

Function: LVDS VDD Voltage Select Jumper

Jumper Type: 2.54mm pitch, 1x3-pin header
Setting:
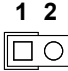

Pin	Description
1-2	+3V (default)
2-3	+5V
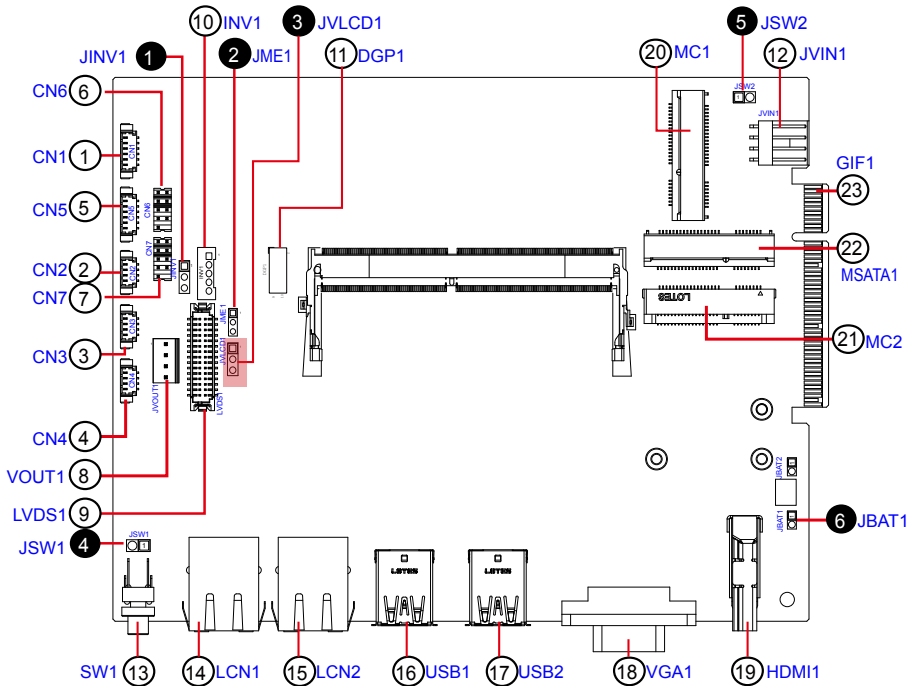

❹ JSW1

Function:	Power Button
Connector Type:	2.54 mm pitch 1x2-pin header
Setting:	
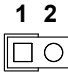

Pin	Desc.
1	PWR_IN_SW#
2	GND

1 2

❺ JSW2

Function:	Reset Button
Connector Type:	2.54 mm pitch 1x2-pin header
Setting:	

Pin	Desc.
1	RST_SW#
2	GND

1 2
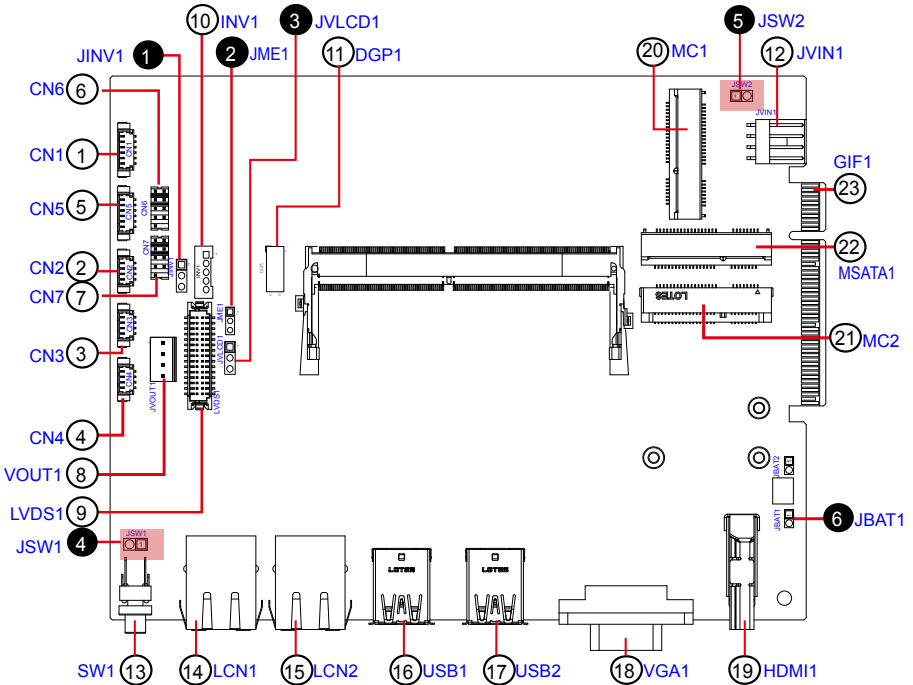

❻ JBAT1

Function: Clears/keeps CMOS
Jumper Type: 2.00 mm pitch 1x2-pin header
Setting:

Pin	Description	
Short	Clears CMOS	**1 2**
Open	Keeps CMOS (default)	**1 2**
3.2.1.1. Connectors

① CN1

Function:	Audio Connector
Connector Type:	1.25mm pitch 1x6 wire to board connector
Pin Assignment:	

Pin	Desc.
1	MIC_L
2	MIC_R
3	GND
4	GND
5	Line Out_L
6	Line Out_R
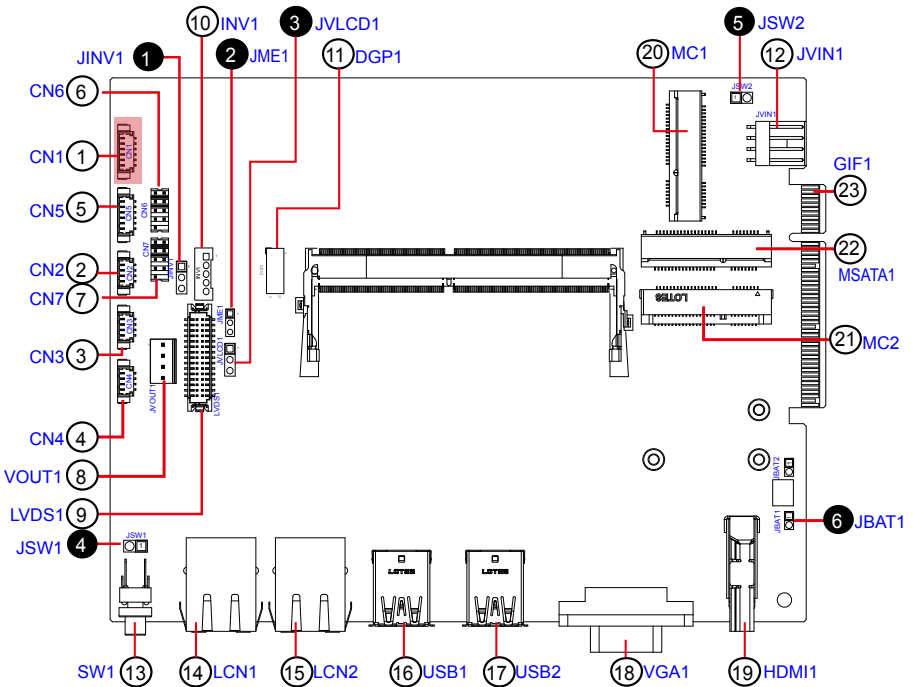

②③④ **CN2, 3, 4**

Function: USB 2.0 Connectors
Connector Type: 1.25mm pitch 1x4 wire to board connector
Pin Assignment:

Pin	Desc.
1	VCC5
2	DATA-
3	DATA+
4	GND
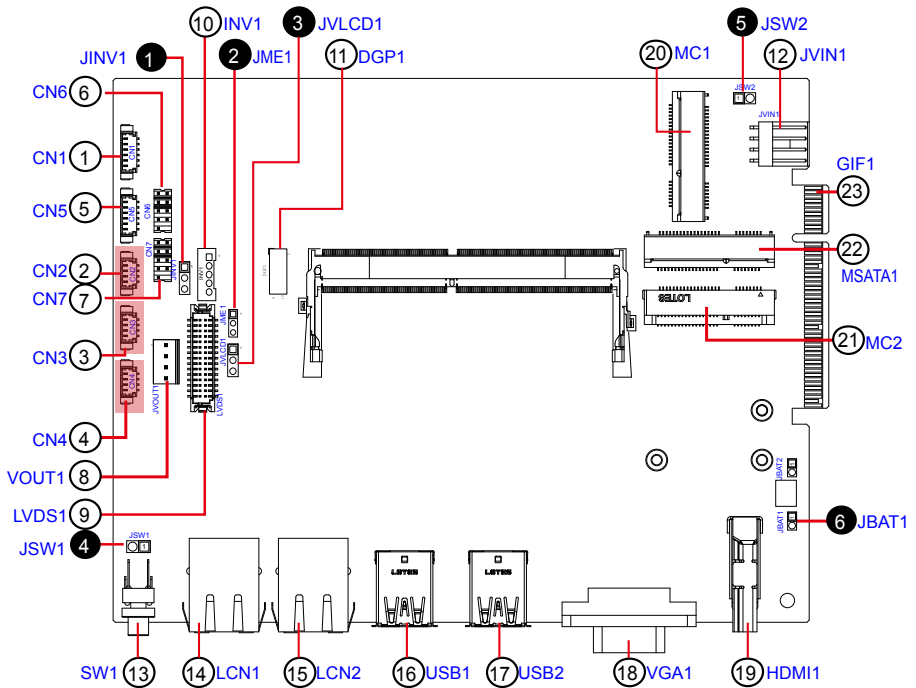

⑤ **CN5**

Function:	PS2 Connector
Connector Type:	1.25mm pitch 1x6 wire to board connector

Pin Assignment:

Pin	Desc.
1	KDATA
2	GND
3	MDATA
4	KCLK
5	VCC5
6	MCLK
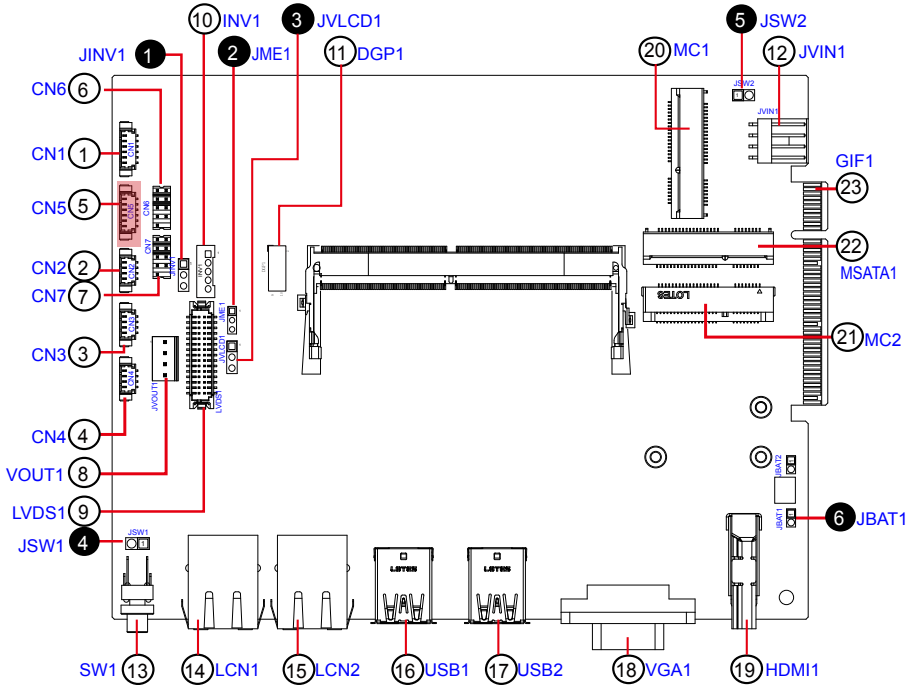

⑥⑦ CN6, CN7 (COM1, COM2)

Function: RS-232/422/485 selectable pin header
Connector Type: 2.00mm pitch 2x5-pin header

Pin Assignment:

Pin	Desc.			Pin	Desc.		
1	DCD	RS-485(D-)	RS-422(TX-)	2	RXD	RS-485(D+)	RS-422(TX+)

ASLAN-917X

⑭ ⑮ **LCN1, 2**

Function: RJ-45 Ethernet connectors
Connector Type: RJ-45 connector that supports 10/100/1000Mbps fast Ethernet
Pin Assignment: The pin assignments conform to the industry standard.
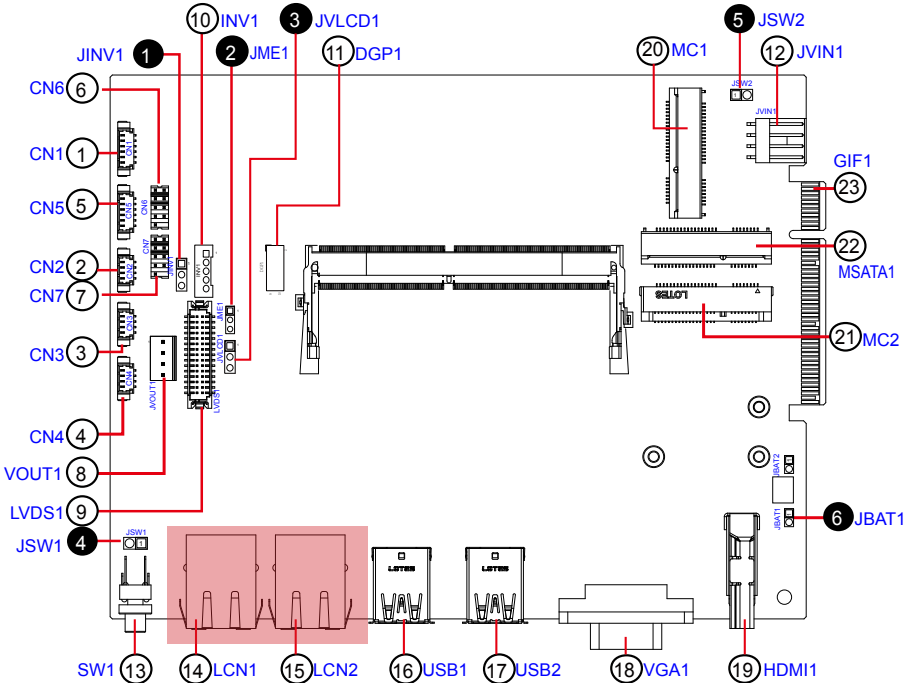

ASLAN-W910C/912C

ASLAN-W915C/919C/922C
ASLAN-917X

⑯ ⑰ **USB1, 2**

Function: USB 3.0/2.0 Connectors
Connector Type: Double-stacked Type-A USB connectors
Pin Assignment: The pin assignments conform to the industry standard.
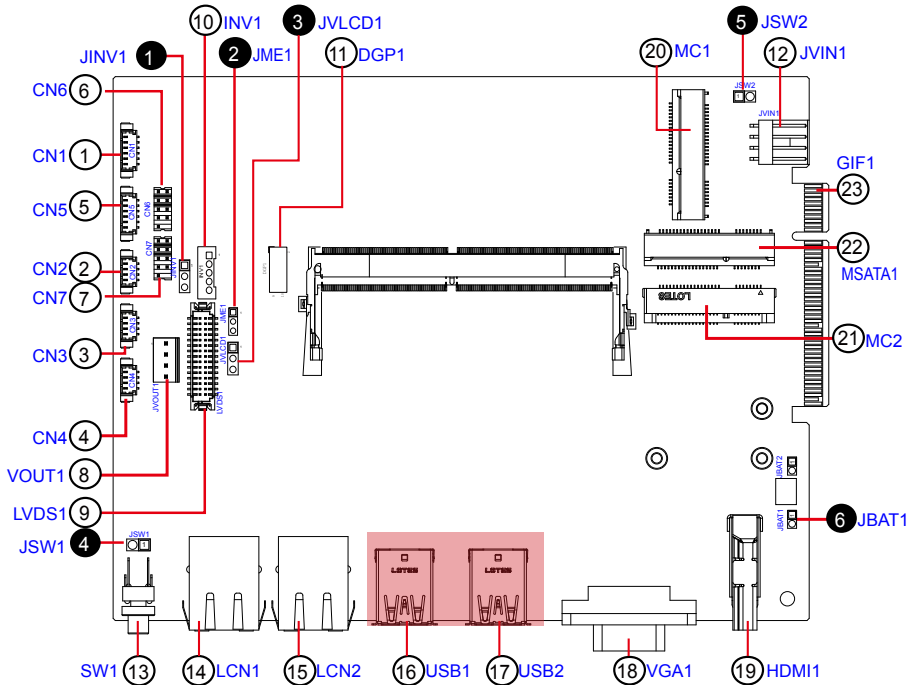

ASLAN-W910C/912C
ASLAN-W915C/919C/922C
ASLAN-917X

⑱ **VGA1**

Function: VGA Connector
Connector Type: D-Sub 15-pin female connector
Pin Assignment:

Pin	Description	Pin	Description
1	RED	9	5V
2	GREEN	10	GND
3	BLUE	11	N/C
4	N/C	12	D-DATA
5	GND	13	H-SYNC
6	GND	14	V-SYNC
7	GND	15	D-DCLK
8	GND		
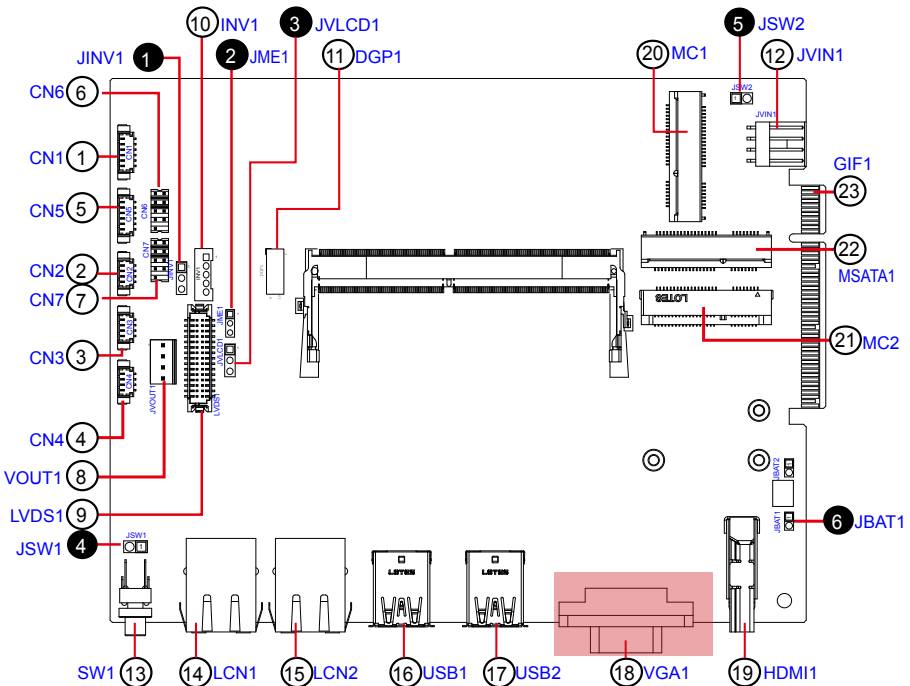

ASLAN-W910C/912C
ASLAN-W915C/919C/922C
ASLAN-917X

⑲ **HDMI1**

Function:	HDMI connector
Connector Type:	19-pin HDMI connector with flange
Pin Assignment:	The pin assignments conform to the industry standard.
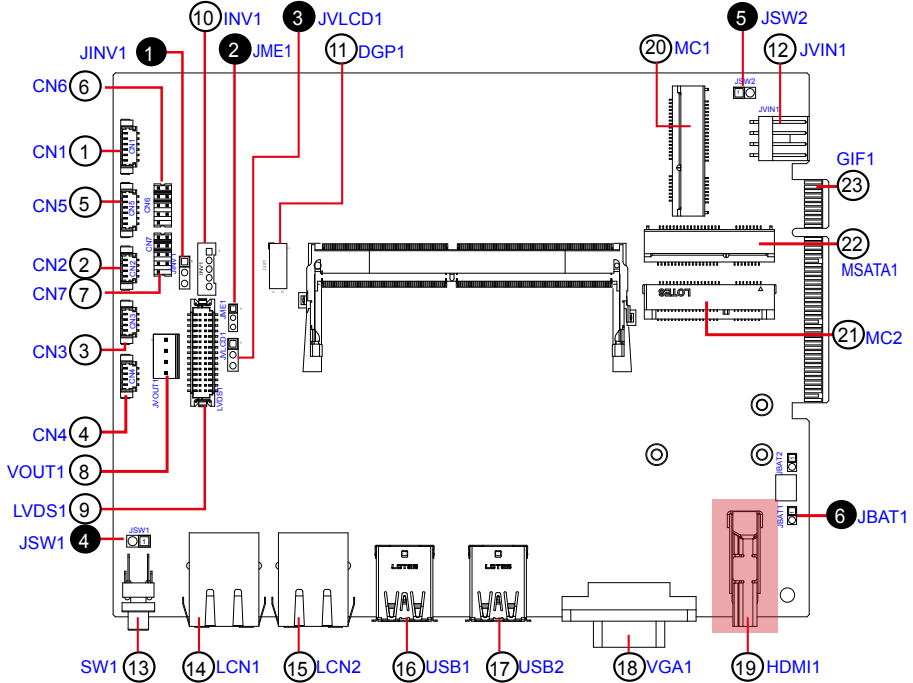

ASLAN-W910C/912C
ASLAN-W915C/919C/922C
ASLAN-917X

⑳㉑ **MC1, 2**

Function: MC1: PCI Express Mini-card Full Size socket
                                 MC2: PCI Express Mini-card Half Size socket

Chapter 4

Installation & Maintenance

4.1. Disassembly the Computer

The computer's carrier board comes with some connectors to join some devices and also some jumpers to alter hardware configuration. Follow through the guide below to access these components inside the computer.

4.1.1 ASLAN-W910C/912C

The ASLAN-W910C/W912C comes with a main board inside. The disassembly procedures for these two models are similar. This section will use the ASLAN-W910C to illustrate the procedures.

1. Loosen and remove the 8 screws from the computer's rear side. Then, loosen and remove the COM/VGA port screws from the top and bottom side of the computer.

2. Dismount the rear cover from the computer. The inside of the computer comes to view. With the bottom side facing you, lift up the bottom side of the main board and disconnect the three connectors as shown below.
3. Carefully lift the main board and set it aside on a flat surface.

4. Then you are ready to access the components of the computer.

Mini-card socket for Wi-Fi module

Mini-card socket
4.1.2. ASLAN-917X/W915C/919C/922C

The ASLAN-917X/W915C/W919C/W922C come with a main board and a daughter board inside. The disassembly procedures for these models are similar. This section will use the ASLAN-W922C to illustrate the procedures.

1. Loosen and remove the 8 screws from the computer's rear side.

2. Dismount the rear cover from the computer. The inside of the computer comes to view.

Mini-card socket

Main Board

Daughter Board
Mini-card socket for Wi-Fi module
4.2. Install Hardware

4.2.1. Install Wi-Fi Module

The computer comes with one Mini-card socket to load the computer with a wireless module of PCI Express Mini-card form factor: This section will guide you to install the Wi-Fi module.

1. Locate the **PCI Express Mini-card** socket for wireless module.

Mini-card socket
for Wi-Fi module
Note the socket has a break among the connector .
The module's key notch should meet
the connector's break.

2. Prepare the Wi-Fi module kit. The module is a half-size module of **PCI Express Mini-card** form factor, with two U.FL connectors, one is "MAIN", and the other is "AUX".

Two U.FL connectors, one is "MAIN" (marked 0), the other is "AUX" (marked 1).
3. Have the RF antenna. The antenna has an SMA connector on one end and an MHF connector on the other.

SMA connector
MHF connector

4. Connect the RF antenna's MHF connector to the Wi-Fi module's main connector marked 0. If you are going to connect a secondary antenna, connect it to the connector marked 1.

Connect the RF antenna's MHF connector to the Wi-Fi module's main connector (marked 0)

Connect the secondary RF antenna's MHF connector to the Wi-Fi module's secondary connector (marked 1)
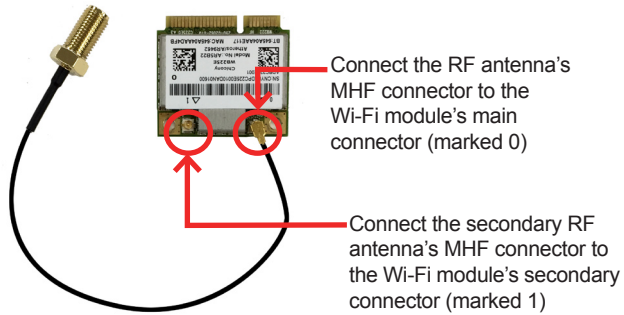

5. Plug the Wi-Fi module to the socket's connector by a slanted angle. Fully plug the module, and note the notch on the wireless module should meet the break of the connector.

Connector break

Fully plug the module.

6. Press the module down and fix the module in place using two screws.

7. Remove a plastic plug from the computer's bottom (or top) side to make an antenna hole. Keep the plastic plug for any possible restoration in the future.

the antenna hole

the removed plug
8. From the other end of the RF antenna, which is an SMA connector, remove the washer and the nut. Save the washer and nut for later use. Note the SMA connector has the form of a threaded bolt, with one flat side.

Remove the nut and washer.

Among the screw thread, there is a flat side.
9. Pull the SMA connector through the above mentioned antenna hole. Note to meet the aforesaid flattened side with the antenna hole's flat side.
Arrange the flat side of the SMA connector to meet the flat side of the antenna hole.

10. Mount the washer first and then the nut to the SMA connector. Make sure the nut is tightened.
Mount the washer and the nut to the SMA connector. Tighten the nut.

11. Restore the computer's bottom cover and fasten the screws.

12. Have the external antenna(s). Screw and tightly fasten the antenna(s) to the SMA connector.

4.2.1. Install mSATA Module

To install an mSATA storage module to the computer:

1. Locate the socket for mSATA modules.
mSATA socket

2. Confront the mSATA module's edge connector with the socket's connector. Align the module's key notch the connector's break.

The module's key notch should meet the connector's break.
3. Fully plug the module until it cannot be plugged any more.

Connector
break
Fully plug the module.

4. Press the module down and fix the module in place using two screws.

4.2.1. Install SSD or HDD

The ASLAN-917X/W915C/W919C/W922C comes with two 2.5" drive bays for 2.5" HDD or SSD storage device. To install 2.5" HDD or SSD to the computer,

1. Locate the 2.5" drive bays inside the computer.
2. For the drive bay you want to use, remove the 2 screws securing the bracket.
3. Fix the 2.5" HDD or SSD storage device to the bracket you just removed using 2 screws coming with the storage device kit.

4. Slide the storage device into the SATA connector. Then fix the bracket using the 2 screws removed in step 2.

SATA Connector

5. Repeat steps 2 to 5 to install 2.5" HDD or SSD to the other bay.

4.3. Mount the Computer

Integrate the computer to where it works by mounting it to a wall in the surroundings or to the rear of a display panel.

4.3.1. Panel Mounting

For ASLAN-917X and ASLAN-W915C/919C/922C

1. Put the panel PC into correct-sized opening on a panel or other fixture.

2. Put the provided panel-mounting clamps into holes around edges of the panel PC.

3. Tightly fasten the panel-mounting clamps around edges.

Example of ASLAN-917X

Clamp
Example of ASLAN-W915C/919C/922C

For ASLAN-W910/912C

The ASLAN-W910/912C comes with optional panel mounting brackets for panel mounting. Follow the steps below to mount the computer on a panel.

1. Disassembly the rear cover as described in .

2. Remove the cover plate of the holes for the mounting brackets. Secure the mounting brackets to the rear cover by fastening the 3 screws. Then restore the rear cover to the computer.

Holes for mounting brackets

Bracket

3 screws securing the bracket
3. Put the panel PC into correct-sized opening on a panel or other fixture.
4. Put the provided panel-mounting clamps into holes around edges of the panel PC.

5. Tightly fasten the panel-mounting clamps around edges.
4.3.2. VESA Mounting

4.3.2.1. Use VESA Arm

To integrate the computer to a VESA arm:

1. Find the VESA mounting holes on the Panel PC. The VESA specifications varies according to your model.

100 x 100 mm VESA
mounting holes

75 x75 mm VESA
mounting holes

2. Attach the VESA arm to the rear of the computer by meeting the mounting holes on the VESA arm and VESA bracket.

3. Fix the assemblage with four screws.

VESA compliant arm
Chapter 5

BIOS

The BIOS Setup utility for the ASLAN-W9XXC/917X is featured by American Megatrends Inc to configure the system settings stored in the system's BIOS ROM. The BIOS is activated once the computer powers on. When the computer is off, the battery on the main board supplies power to BIOS RAM.

To enter the BIOS Setup utility, keep hitting the "Delete" key upon powering on the computer.

Key Commands

The BIOS Setup utility relies on a keyboard to receive user's instructions. Hit the following keys to navigate within the utility and use the utility.

Keystroke	Function
← →	Moves left/right between the top menus.
↓ ↑	Moves up/down between highlight items.
Enter	Selects an highlighted item/field.

Esc	► On the top menus:
	  Use **Esc** to quit the utility without saving changes to CMOS. (The screen will prompt a message asking you to select **OK** or **Cancel** to exit discarding changes.
	► On the submenus:
	  Use **Esc** to quit current screen and return to the top menu.

Page Up / +	Increases current value to the next higher value or switches between available options.
Page Down / -	Decreases current value to the next lower value or switches between available options.
F1	Opens the **Help** of the BIOS Setup utility.
F10	Exits the utility saving the changes that have been made. (The screen then prompts a message asking you to select **OK** or **Cancel** to exit saving changes.)

Note: Pay attention to the "WARNING" that shows at the left pane onscreen when making any change to the BIOS settings.

This BIOS Setup utility is updated from time to time to improve system performance and hence the screenshots hereinafter may not fully comply with what you actually have onscreen.

5.1. Main

The **Main** menu features the settings of **System Date** and **System Time** and displays some BIOS info.

Setting	Description
Hyper-threading	**Enabled** (default) for Windows XP and Linux (OS optimized for Hyper-Threading Technology) and **Disabled** for other OS (OS not optimized or Hyper-Threading Technology). When disabled only one thread per enabled core is enabled.
Active Processor Cores	Number of cores to enable in each processor package. ► Options: **All** (default) and **1**
Intel Virtualization Technology	When enabled, a VMM can utilize the additional hardware capabilities provided by Vanderpool Technology ► Options: **Enabled** (default) or **Disabled**
Boot performance Mode	Set the performance state that the BIOS will set before the OS handoff. ► Options: **Max Battery, Max Non-Turbo Performance** (default) and **Turbo Performance**.
Intel (R) Speed Step (tm)	**Enable** (default) / **Disable** Intel SpeedStep
Turbo Mode	Only available when Intel Speed Step is **Enabled**. **Enable** (default) / **Disable** Turbo Mode
CPU C States	**Enable** / **Disable** (default) CPU C States

             Advanced

  ACPI Settings                                       Enables or Disables
                                                      System ability to
  Enable ACPI Auto Configuration     [Disabled]       Hibernate (OS/S4 Sleep
                                                      State). This option
  Enable Hibernation                 [Enabled]        may be not effective
  ACPI Sleep State               [S3 (Suspend to RAM)] with some OS.

                                                      _____
                                                      →←: Select Screen
                                                      ↓↑: Select Item
                                                      Enter: Select
                                                      +/-: Change Opt.
                                                      F1: General Help
                                                      F2: Previous Values
                                                      F9: Optimized Defaults
                                                      F10: Save and Exit
                                                      ESC: Exit

          Version 2.18.1263. Copyright (C) 2017 American Megatrendes, Inc.
```

Setting	Description
Enable ACPI Auto Configuration	**Enables** or **Disables** (default) BIOS ACPI Auto Configuration
Enable Hibernation	**Enables** (default) or **Disables** System ability to Hibernate (OS/ S4 Sleep State). This option may be not effective with some OS.
ACPI Sleep State	Select ACPI sleep state the system will enter when the SUSPEND button is pressed. ► **Options: Suspend Disabled** and **S3 (Suspend to RAM)** (default)

5.2.4. AMT Configuration

Intel® Active Management Technology (Intel® AMT) is a hardware-based solution that uses out-of-band communication for system administrators to monitor and manage the computers and other network equipment by remote control even if the hard drive is crashed, the system is turned off or the operating system is locked. This submenu features the settings of iAMT's BIOS extension, which are required to make use of iAMT.

```
            Aptio Setup Utility - Copyright (C) 2017 American Megatrends, Inc.
              Advanced

  Intel AMT                    [Disabled]                    Enable/Disable Intel
                                                             (R) Active Management
                                                             Technology BIOS
                                                             Extension.
                                                             Note : iAMT H/W is
                                                             always enabled.
                                                             This option just
                                                             controls the BIOS
                                                             extension execution.
                                                             If enabled, this
                                                             requires additional
                                                             firmware in the SPI
                                                             device
                                                             →←: Select Screen
                                                             ↓↑: Select Item
                                                             Enter: Select
                                                             +/-: Change Opt.

Setting	Description
Legacy USB Support	Enables/disables legacy USB support. ► Options available are **Enabled** (default), **Disabled** and **Auto**. ► Select **Auto** to disable legacy support if no USB device are connected. ► Select **Disabled** to keep USB devices available only for EFI applications.
XHCI Hand-off	This is a workaround for OSes without XHCI hand-off support. The XHCI ownership change should be claimed by XHCI driver. ► The optional settings are: **Enabled** (default) **/ Disabled**.
USB Mass Storage Driver Support	Enables/disables USB Mass Storage Driver Support. ► The optional settings are: **Disabled** / **Enabled** (default).
USB hardware delay and time-out	
Port 60/64 Emulation	**Enables** / **Disables** (default) I/O port 60/64h emulation support.
USB Transfer time-out	Use this item to set the time-out value for control, bulk, and interrupt transfers. ► Options: **1 sec, 5 sec, 10 sec, 20 sec**

Device reset time-out	Use this item to set USB mass storage device start unit command time-out. ► Options available are: **10 sec, 20 sec** (default)., **30 sec, 40 sec**
Device power-up delay	Use this item to set maximum time the device will take before it properly reports itself to the host controller. 'Auto' uses default value: for a root port it is 100 ms, for a hub port the delay is taken from hub descriptor. ► Options available are: **Auto**: Default **Manual**: Select **Manual** you can set value for the following sub-item: 'Device Power-up delay in seconds', the delay range in from 1 to 40 seconds, in one second increments.

Setting	Description
PCI Express Configuration	See 5.3.2.1. PCI Express Configuration on page 98
USB Configuration	See 5.3.2.2. USB Configuration on page 98
HD Audio Configuration	► Control Detection of the HD-Audio device. Options available are: **Disabled**: HDA will be unconditionally disabled **Enabled**: HDA will be unconditionally Enabled **Auto** (default) = HDA will be enabled if present, disabled otherwise. ► USB Audio Device Enable (default) or disable USB Audio Device.
PCH LAN Controller	**Enabled** (default) / **disabled** onboard NIC. If enabled, "Wake on LAN" option will be available to enable (default) / disable integrated LAN to wake the system. (The Wake On LAN cannot be disabled if ME is on at Sx state.)

LAN PHY Drives LAN-WAKE#	**Enable** or **disable** (default) LAN Phy driving LAN-WAKE# else platform drives LAN_WAKE#. ► Wake on LAN **Enable** (default) or **disable** integrated LAN to wake the system. (The Wake On LAN cannot be disabled if ME is on at Sx state)/ ► SLP_LAN# Low on DC Power **Enable** (default) or **disable** SLP_LAN# Low on DC Power
K1 Off	**Enable** (default) or **disable** K1 off feature (CLKREQ).

5.3.2.1. PCI Express Configuration

Setting	Description
PCI Express Root Port 1/2/3/4/5/6/10	**Enable** (default) or disable PCI Express Port.
ASPM Support	Disable or set the ASPM level. Force L0s will force all inks to L0s state. "Auto" will allow BIOS to auto configure."Disable" will disable ASPM. ► Options: **Disabled** (default), **L0s**, **L1**, **L0sL1** and **Auto**.
L1 Substates	PCI Express L1 Substates settings. ► Options: **Disabled**, **L1.1**, **L1.2** and **L1.1 & L1.2** (default).
PCIe Speed	Select PCI Express port speed. ► Options: **Auto** (default), **Gen1**, **Gen2** and **Gen3**

5.3.2.2. USB Configuration

Setting	Description
USB Precondition	Precondition work on USB host controller and root ports for faster enumeration. ► Options: **Enable**/**Disable** (default).
XHCI Disable Compliance Mode	Options to disable Compliance Mode. Default is **FALSE** (default) to not disable Compliance Mode. Set **TRUE** to disable Compliance Mode.
xDCI Support	**Enable**/**disable** (default) xDCI (USB OTG Device).
USB Port Disable Override	Selectively **enable**/**disable** (default) the corresponding USB port from reporting a Device Connection to the controller.

     Hard Drive BBS Priorities
                                                   →←: Select Screen
                                                   ↓↑: Select Item
                                                   Enter: Select
                                                   +/-: Change Opt.
                                                   F1: General Help
                                                   F2: Previous Values
                                                   F9: Optimized Defaults
                                                   F10: Save and Exit
                                                   ESC: Exit

          Version 2.18.1263. Copyright (C) 2017 American Megatrendes, Inc.
```
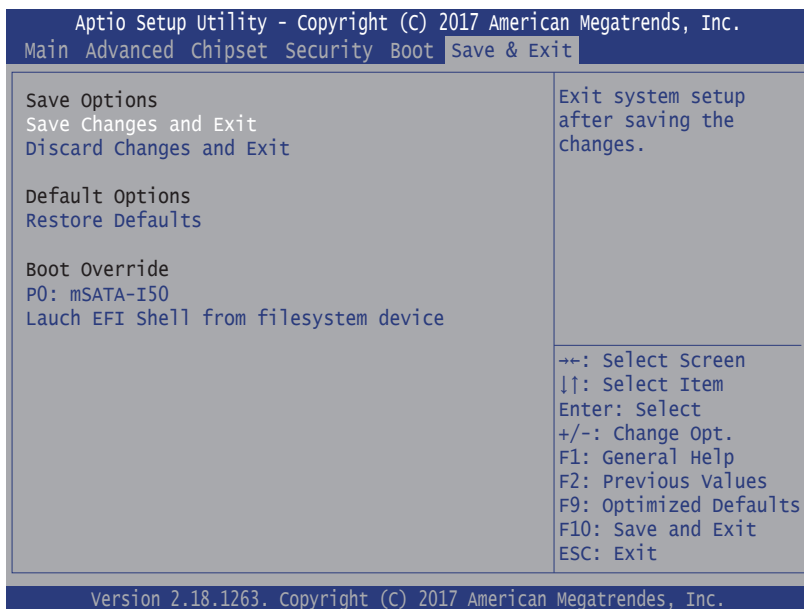

Setting	Description
Setup Prompt Timeout	Set how long to wait for the prompt to show for entering BIOS Setup. ► The default setting is **2** (sec). ► Set it to **65535** to wait indefinitely.
Bootup NumLock State	Sets whether to enable or disable the keyboard's NumLock state when the system starts up. ► Options available are **On** (default) and **Off**.
Quiet Boot	Sets whether to display the POST (Power-on Self Tests) messages or the system manufacturer's full screen logo during booting. ► Select **Disabled** to display the normal POST message, which is the default.
Fast Boot	Enables or disables (default) boot with initialization of a minimal set of devices required to launch active boot option. Has no effect for BBS boot options.
Boot Option Priority	Set the system boot priorities.
Hard Drive BBS Priorities	Sets the order of the legacy devices in this group. BBS means "BIOS Boot Specification".

5.6. Save & Exit

  Main  Advanced  Chipset  Security  Boot  Save & Exit

  Save Options                               Exit system setup
  Save Changes and Exit                      after saving the
  Discard Changes and Exit                   changes.

  Default Options
  Restore Defaults

  Boot Override
  P0: mSATA-I50
  Lauch EFI Shell from filesystem device

                                             →←: Select Screen
                                             ↓↑: Select Item
                                             Enter: Select
                                             +/-: Change Opt.
                                             F1: General Help
                                             F2: Previous Values
                                             F9: Optimized Defaults
                                             F10: Save and Exit
                                             ESC: Exit

         Version 2.18.1263. Copyright (C) 2017 American Megatrendes, Inc.
```

Setting	Description
Save Changes and Reset	Saves the changes and quits the BIOS Setup utility.
Discard Changes and Exit	Quits the BIOS Setup utility without saving the change(s).
Restore Defaults	Restores all settings to defaults. ► This is a command to launch an action from the BIOS Setup utility.
Boot Override	**Boot Override** presents a list in context with the boot devices in the system. ► **P0: mSATA-I50:** Select the device to boot up the system regardless of the currently configured boot priority. ► **Launch EFI Shell from filesystem device:** Attempts to launch EFI Shell Application (Shell.efi) from one of the available filesystem devices.
